

Technical Specifications — Municipal Network Equipment

Minimum technical requirements apply to the proposed equipment.

Network Switch: 48 x 1GbE copper ports, minimum 4 x 10GbE SFP+ uplinks, Layer 3 routing, VLAN support, IPv6 support, and centralized management.

Wireless Access Point: Wi-Fi 6E, 2.5GbE Ethernet uplink, WPA3 support, and centralized cloud management.

Firewall Appliance: minimum 8 x 1GbE interfaces, stateful inspection, IPS/IDS, VPN support, and a three-year security subscription.

Manufacturer registration is required for all network equipment before deployment.

Proposed manufacturer: NetAxis Systems.

Product	Model No.	Part No.	Warranty
Network Switch	NX-48G-L3	NA-48G-L3	3-year limited hardware warranty
Wireless Access Point	NX-WAP-6E	NA-WAP-6E	3-year limited hardware warranty
Firewall Appliance	NX-FW-800	NA-FW-800	3-year hardware + subscription
