

Fleet Charging Equipment — Technical Specifications

Minimum technical specifications for all proposed equipment.

DC Fast Charger: minimum 150 kW output, CCS1 connector, OCPP 1.6J support, payment terminal capability, and outdoor-rated enclosure.

Level 2 Charger: minimum 19.2 kW output, J1772 connector, OCPP 1.6J support, Wi-Fi/Ethernet connectivity, and load balancing.

Charging Management Gateway: minimum 3 Ethernet interfaces, centralized monitoring, remote firmware management, and role-based access control.

Manufacturer registration is required before commissioning.

Proposed manufacturer: VoltEdge Energy.

Product	Model No.	Part No.	Warranty
DC Fast Charger	VE-FC150	VE-150-CCS1	5-year equipment warranty
Level 2 Charger	VE-L219	VE-L2-19-2	5-year equipment warranty
Charging Gateway	VE-GW300	VE-GW-300	3-year hardware warranty
