

Vendor Compliance, Safety and Documentation Requirements

Bid Number: LC-ENV-2026-031

The proposal must include a signed bid form, W-9, manufacturer authorization letter, site-specific electrical safety plan, and non-collusion affidavit.

The bidder must identify a qualified project manager and provide evidence of relevant charging-infrastructure installation experience.

The safety plan must address electrical isolation, site traffic control, and commissioning procedures.

Failure to provide a required document may result in the proposal being deemed non-responsive.
